Electric cable covered in Red Copper - The Original Creative-Cables - RR11
Round 3x0.75mm

N° of cores:: 3x0.75

Description

The original Creative-Cables.

Some call them colourful textile cables, others fabric covered cables, whilst others still simply call them coloured cables. But really, for over 10 years their real name has been Creative-Cables.

Our electric cables covered in 100% copper stand out for their elegance and extraordinary brightness, that pops right out of the copper covering.

The Red Copper finish is perfect for bright and elegant creations and for refined settings, classic or modern.

Our copper covered electric cables are only available with three internal conductors and grounding cable.

We recommend that installation be carried out by a qualified professional, particularly the grounding cable of the copper outer cover.
