Naked light bulb cage metal lampshade Ghostbell with E27 lamp holder
Finish: Black

Description

Ghost Bell may be the smallest of the **cage lampshades** or the largest of the metal lamp holders. Surely it is perfect for decorating both modern and **industrial or vintage style** interiors.

The naked metal lampshade cage lets you see the E27 lamp holder lamp holder in its different finishes. Ghost Bell can be either used as a suspension lamp or connected to a pivot junction or an extension pipe to make a wall lamp or table lamp.

Create a light installation **perfect for a living room or convivial environment**, choose the lamp holder finish you prefer from those available and complete your new **hanging lamp** with Creative-Cables fabric-covered components, accessories and cables.

And don't forget the light bulb! The Ghostbell lampshade has a **small diameter**, so we recommend using it with a decorative **LED bulb** in the ST64 Edison shape.

Attention! Bulb NOT included.
