Prisma cement lampshade for suspension, with cable clamp and E27 lamp holder

Finish: Light cement

Description

The Prisma cement lampshade with its **original shape** and the unconventional material of which it is made is a real **furnishing element**, which stands out for its sophisticated and extremely modern design, **perfect for being placed over a bar counter** and in all environments with a minimalist and industrial style.

Thanks to the very nature of the material, each concrete lampshade has a surface different from all the others, making it a unique item!

Choose the finish you prefer among those available and match the Prisma concrete lampshade with one of our fabric covered cables: depending on the colour you match you can give a totally different look to your new pendant lamp.

With the Prisma cement lampshade you need **3x0.75 cables** Creative-Cables, available both twisted and round!

Attention! Bulb NOT included.
