Universal wall mounting cable clip fabric cables

Finish: Black

Description

The universal cable gland is the indispensable accessory for fixing fabric-covered electrical cables to the wall or ceiling.

This tiny accessory will allow you to design the most suitable or fun and creative routes with our variety of coloured cables. Choose the finish that best matches the style of your indoor space: if you prefer a concealed effect, the transparent finish will be perfect!

Suitable for cables up to a maximum cross-section of 7mm and fully compatible with all of our fabric covered lighting cables..

Package includes screw and wall plug.

Warning! This product is not suitable for large section cables or nautical cords.
