Decentraliser, ceiling or wall mount 'V' hook for fabric electrical cables
Finish: Transparent

Description

The wall bracket with 'V' hook allows you to fix our fabric clothed electrical cables to the wall or ceiling.

This decentraliser is the perfect accessory for drawing curved or straight lines, horizontally or vertically, and allows you to attach the cables of a single or multiple pendant lamp to the ceiling or wall in a variable manner, or to create luminous garlands using a two-way lamp holder.

This decentraliser is the perfect accessory for drawing curves or straight lines, horizontally or vertically. Choose the finish that best matches the style of your indoor space: if you prefer a concealed effect, the transparent finish will be perfect!

Suitable for cables of up to 8mm cross-section and is fully compatible with all our fabric covered lighting cables..
Package includes screw and wall plug.

Warning! This product is not suitable for large section cables or nautical cords.
