Rolé, wooden wall mount cable tie for pendant lamp

Finish: White

Description

The Rolé wooden cable entry is a wall attachment perfect to obtain a beautiful illumination for your indoor spaces.

Rolé is 100% made out of wood and is an authentic Made in Italy product. It's available in four different finishes. Natural White or Black beechwood popular for its brighter surface, whilst the ashwood option with wengé effect has a darker tone, leaning towards black and purple colourings.

The Rolé cable entry is a versatile accessory that can be used in multiple situations. It can be used to decentralise the suspension lamp, or, thanks to the use of a series of cable entries, you will be able to project patterns and other installations on your walls by really stretching the cable from one entry to the next. Or, on a different note, use Rolé as a coat hanger!

Rolé is easy to install thanks to the special wall mounting accessories included in the kit.

Attention the piece for wall mounting included in the kit is onyl compatible with brick and concrete walls and not with drywall.
