Description

The original Creative-Cables.

Some call them colourful textile cables, others fabric covered cables, whilst others still simply call them coloured cables. But really, for over 10 years their real name has been Creative-Cables.

Dedicated to anyone who loves warm colours and distinct contrast. this cable will fit perfectly into any vintage and industrial room, where the warmth of Golden Honey and the coldness of Anthracite will set a striking tone.

Our ZigZag pattern fabric covered cables have always been very popular thanks to the curious optical effect that they create, uniting the two colours they are comprised of.

We've combined these colours with cotton, to create new cables that will stimulate your creativity!
