Cotton Blue Mirage Textile Cable - The Original Creative-Cables - RX10 round 2x0.75mm / 3x0.75mm

N° of cores:: 3x0.75

Description

The original Creative-Cables.

Some call them colourful textile cables, others fabric covered cables, whilst others still simply call them coloured cables. But really, for over 10 years their real name has been Creative-Cables.

Our cotton electric cables enhance warm and pastel tones.

The Blue Mirage RX10 fabric cable allows you to obtain a more natural look that will blend into homey, vintage settings perfectly. Ideal for fans of a "shabby chic" yet refined look.

Creative-Cables' coloured electric cables are uniquely flexible, as they are made from a special PVC and are 100% Made in Italy.

Data Sheet

So many of our customers ask us which fabric they should choose for their cables: Rayon, Cotton or Linen?

The answer depends on what effect you're going for. Our Linen and Cotton covered cables have an opaque and natural effect, while Rayon will bring out the brightness in the colours of its surroundings. Often, a natural effect will be a good match for vintage elements like brass, copper, iron or porcelain, while Rayon works with coloured metal or polished/chrome finishes. The decision is yours, based on your taste!
