Cotton Brick and Light Blue Vertigo Textile Cable - The Original Creative-Cables - ERC36 round 2x0.75mm 3x0.75mm

N° of cores:: 3x0.75

Description

The original Creative-Cables.

Some call them colourful textile cables, others fabric covered cables, whilst others still simply call them coloured cables. But really, for over 10 years their real name has been Creative-Cables.

This Vertigo braided lighting cable, covered in brick and light blue cotton, is part of a collection of 40 exciting new cables. With Italian design inspired by the mesmerising patterns from Hitchcock's movie of the same name, it includes some stunning colours, styles, fabrics and metals.

Perfect for the creative and artistic amongst our customers, to add those finishing design touches to a home, these cables will work wonderfully for making your own table lamps, pendants and wall lighting. With its natural fabric, thin blue stripe and deep brick red, this example makes a great statement.

It's not all about appearance though, like all our wiring the Vertigo cables are soft, flexible and durable and conform to all UK and EU standards.
